12:50 am

हमे हमारी भाषा मे बता दिया है कि हमारे मरीज कि हालत गंभीर है और उनका HB - 4.9 है, साथ ही ब्लड प्रेशर भी अधिक मात्रा मे बढ रहा है और घट रहा है। खून कम होने के वजह से और साथ ही ब्लड प्रेशर मे होते हुए बदलाव के वजह से जान का खतरा बना हुआ है, और यह सब जानते हुए हम अपने मरीज का ईलाज A.S.M.H मे करवाना चाहते है और यदि ऑपरेशन कोई भी अनहोनी होती है, तो उसके जिम्मेदार हम खुद होंगे, इसमे अस्पताल या डॉक्टर का कोई दोष नही होगा।
